Tugas 6 : ComboBox, RadioButton, dan CheckBox

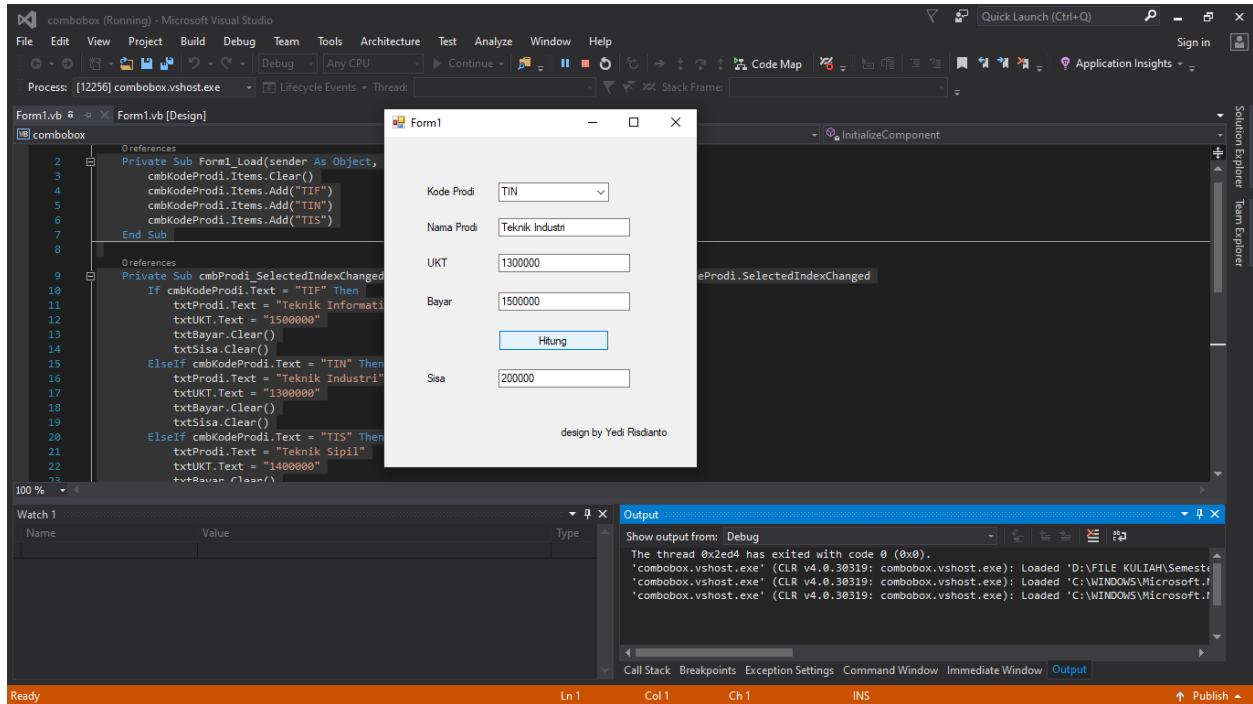

Source code ComboBox :

```
Public Class Form1
    Private Sub Form1_Load(sender As Object, e As EventArgs) Handles
MyBase.Load
        cmbKodeProdi.Items.Clear()
        cmbKodeProdi.Items.Add("TIF")
        cmbKodeProdi.Items.Add("TIN")
        cmbKodeProdi.Items.Add("TIS")
    End Sub

    Private Sub cmbProdi_SelectedIndexChanged(sender As Object, e As
EventArgs) Handles cmbKodeProdi.SelectedIndexChanged
        If cmbKodeProdi.Text = "TIF" Then
            txtProdi.Text = "Teknik Informatika"
            txtUKT.Text = "1500000"
            txtBayar.Clear()
            txtSisa.Clear()
        ElseIf cmbKodeProdi.Text = "TIN" Then
            txtProdi.Text = "Teknik Industri"
            txtUKT.Text = "1300000"
            txtBayar.Clear()
            txtSisa.Clear()
        ElseIf cmbKodeProdi.Text = "TIS" Then
            txtProdi.Text = "Teknik Sipil"
            txtUKT.Text = "1400000"
            txtBayar.Clear()
            txtSisa.Clear()
        End If
    End Sub

    Private Sub txtHitung_Click(sender As Object, e As EventArgs)
Handles txtHitung.Click
        txtSisa.Text = Val(txtBayar.Text) - Val(txtUKT.Text)
    End Sub
End Class
```

Hasil Program :

Source Code RadioButton :

Public Class Form1

Private Sub btnSubmit_Click(sender As Object, e As EventArgs) Handles btnSubmit.Click

Dim harga As Integer

'Cek kategori tiket yang dipilih

If radioAnak.Checked Then

harga = 20000 'Harga tiket anak-anak

ElseIf radioDewasa.Checked Then

harga = 30000 'Harga tiket dewasa

Else

MessageBox.Show("Pilih kategori tiket terlebih dahulu")

Exit Sub

End If

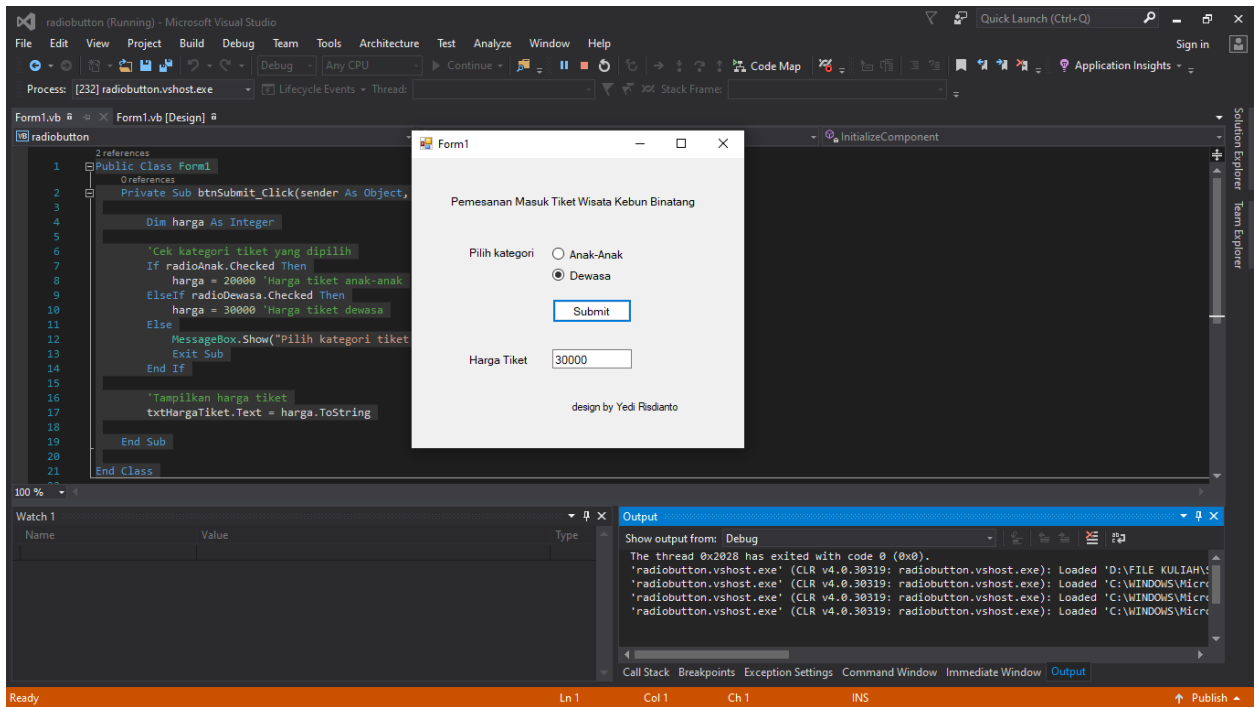

'Tampilkan harga tiket

txtHargaTiket.Text = harga.ToString

End Sub

End Class

Hasil Program RadioButton :

Source Code CheckBox ;

Public Class Form1

Private Sub btnHitung_Click(sender As Object, e As EventArgs) Handles btnHitung.Click

Dim hargaBarang As Double

Dim jumlahBarang As Integer

Dim totalbyr As Double

hargaBarang = Cdbl(txtHarga.Text)

jumlahBarang = CInt(txtJumlah.Text)

totalbyr = hargaBarang * jumlahBarang

If checkMember.Checked Then

totalbyr *= 0.9 'diskon 10% untuk anggota

End If

txtTotal.Text = Format(totalbyr, "N0")

End Sub

End Class

Hasil Program CheckBox ;
